1415727	320kg	2 Years

Etac Turner PRO Standing Aid

The Etac Turner PRO Patient Transfer Aid provides support for a patient during transfers between seated positions and provides ergonomically correct positioning for the caregiver. Using this product reduces the risk of falls and enables better communication between the patient and caregiver.

The Etac Turner PRO can be easily pushed out of the way when not in use and is easy to move on rolling casters. This product is for patients with full use of their legs who can verbally communicate and have no behavioural issues.

The orange handle provides an intense, high contrasting colour that can help users with impaired vision or dementia. The small footplate is the perfect transferring aid when transferring in tight spaces.

Etac Turner Pro is compact and easy to grip, and due to its low weight of only 7.5 kg, it is easy to transport.

Code	Max Load
1481886	200kg

Code	Total Width	Total Height	Max Load
1396528	560 - 710mm	1060mm	185kg

NURSE CALL BED ALARMS
Out of bed alarms are an inexpensive and highly effective method of reducing falls by monitoring the out of bed movements of at risk residents.

The Out of Bed Sensor Mat can be easily fitted to your existing nurse call system. The Sensor Mat interface control replaces your existing nurse call pendant (nurse call push button on a cord) with a new pendant that also connects the Out of Bed sensor mat to your nurse call system. The new pendant & interface control feature an on/off switch for your convenience.

Sensor Beam

The ultimate early warning for all preventions.
- Utilises motion detection
- Creates an invisible beam above or beside a bed/chair or across a doorway
- Generates a nurse call alarm when beam is interrupted
- Connects to existing nurse call system
- Great for residents who have become aware of floor mats
- Will not false alarm
- Transferable from room to room

Code	Spec
1281321	Nurse Call Alarm Sensor Beam w 3 Metre Call Bell Pole & Base

AQ MediSafe Plus Vaccine Fridges

Medisafe Plus Fridges are some of the most feature-packed, high quality models of vaccine storage units available in Australia. Designed and manufactured in Australia, they are purpose built for vaccine storage in line with the Australian Government Department of Health's 'Strive for 5' vaccine storage guidelines. Medisafe Plus fridges are QCPP accredited and TGA approved, giving you confidence that your vaccines will be stored securely.

All Medisafe Plus units are uniquely equipped with two temperature probes for rigorous monitoring of both cabinet temperature and a simulated vaccine temperature (when using the AQ Box cloud temperature monitoring system). This yields the most accurate measurements possible and is a unique feature in the market of vaccine protection.

The AQ Box comes standard with all Medisafe Plus fridges, and includes 12 months' free access to the portal. The AQ Box acts as an automated data logger which allows you to view and print temperature charts with Minimum and Maximum temperatures, as well as real time data from any web-enabled smartphone, tablet, or computer. If there is a temperature breach, loss of connectivity or power outage, alerts are sent via SMS and email. Medisafe Plus fridges also comes standard with a BMS outlet for hospital remote monitoring.

- Digital temperature control system preconfigured to hold temperature from +2°C to +8°C in line with national 'Strive for 5' storage guidelines
- AQ Box cloud temperature monitoring with SMS and email alerts of temperature breach, loss of connectivity or power outage
- Dual temperature probes for both cabinet temperature and simulated vaccine temperature
- QCPP cold chain accredited and TGA approved
- Audible and visual alarms
- Adjustable shelves
- Lockable door
- Low energy consumption
- Low noise output
- Dedicated technical service line
- 24 hour product support
- 2 year warranty

BEDS

PremiumLift Ultra Low Bed Beech

The PremiumLift Ultra Floorline Bed is the ultimate in low level beds, designed in Germany to the higher quality specification. It offers a variety of functions including Trendelenburg and cardiac chair position allowing for excellent care to be provided. It is an optimal floor level bed solution for use both for home care and aged care facilities. Its minimum height from the floor is just 6.7cm ensuring complete patient safety, Should the user be inclined to roll whilst in bed, and potentially fall, the bed reduces impact and allows the user to safely roll onto the floor, or a fall matt.

CodaCare

CodaCare is 100% Australian owned. Their story starts way back in 1967, and to this day they continue to build on their heritage of user-centric design, quality local manufacturing, importing and outstanding client service. As leading hospital & aged care residential furniture suppliers, they believe in providing long term value for money for Australia's hospitals, rehabilitation centres, aged care facilities and other healthcare organisations.

They use a range of materials to produce furniture which includes hospital grade compact laminate, a marine grade board that comes with a 10 year warranty. HPL is impact and scratch resistant and does not fade over time.

When you buy Australian made furniture, not only are you supporting local manufacturers and retailers, you are choosing furniture made from quality and sustainable materials which are manufactured under the guise of quality management system such as ISO 9001 and Australian health and safety requirements.

CodaCare Premiumlift Overbed Table Beech

- 50mm twin wheeled castors (inclusive of 2x lockable castors)
- Spring adjustable with locking hand wheel
- Impact resistant PVC matching edging
- Sturdy steel frame powder coated

forté HEALTHCARE

The Forté Assure Evacuation System eliminates the annoyance of traditional mattress evacuation systems through its totally integrated unique design. With all evacuation straps self-contained within inside the mattress cover, there is no safety or damage issue of straps falling loose and becoming entangled with nearby medical equipment or care staff attending to the patient. With all seams High Frequency Sealed and Welded, the Assure Evacuation System does not compromise on hygiene and infection control. Staff safety and risk of injury is mitigated as the Assure System significantly reduces force required to evacuate a patient across a range of floor surfaces. Unique foam core modifications allow the patient to be encapsulated and further protected against harm.

Evacuation Pressure Care Mattress

- Significantly reduces friction forces between mattress and varied floor surfaces to make evacuation procedure easier
- External Seams High Frequency Sealed, Welded and Fused for added infection control
- Wipe Clean Pocket with High Frequency Welded Zipper for Infection Control
- Allows foams to encapsulate patient for protection
- Tapered to allow grip to bed base while in normal use
- Easy to Access, do not need to lift mattress to access
- 4 x Integrated Robust Heavy Duty Carry Handles
- Stainless Steel, Non-Corrosive Nyloc Attachment
- Compliant with Infection Control Requirements
- Fully Integrated & Contained Evacuation Straps
- Prevents Ingress of Fluid through Seams
- 100% Wipe-Clean, Impervious to Fluids
- Pockets Integrated within foam core
- Custom Foam Core Modification
- Low Resistance Base Sheet
- Dual Evacuation Pull-Point

Zephair Pressure & Palliative Care Mattress System

High Level Acute Pressure Care and Comfort Mattress System.

The ZEPHAIR Mattress range provides true leadership in powered patient pressure care. Tried and trusted in facilities from ICU Wards to Palliative Hospice use, this pressure care system will provide the answer to all acute care needs, whilst providing unparalleled comfort and staff Primary Care compliance.

Key clinical attributes include ventilated immersion upper layers, deep 24 cell alternating integrated inner mattress core, firm base foam layer, quiet efficient air flow generator with easy set weight calibration and dual stretch waterproof breathable cover.

The ZEPHAIR Pressure Care Mattress range includes models suited for standard hospital bed sizing, wide & bariatric requirements. The quality and features of the Zephair range allow confident usage in the Hospital, Aged Care and Spinal environments. Select the Zephair Pressure Care System and achieve unsurpassed reliability and consistency of care.

24 Cell, Alternating Air System
- 125mm depth facilitates immersion
- Ultra-flexible, soft-touch material
- 24 Cell System minimises patient disturbance
- Static head support region

1426257	King Single	2010mm	1080mm	150mm

CairMax Duo Foam Air Support Surface System

The CairMax Duo is a versatile foam air support surface with the ability to alternate between static or dynamic support, in response to the needs of the patient.

Mattress functions as a static pressure relieving surface without the control unit, however when clinically required, it can step up to provide dynamic support with the control unit connected.

No concerns over correct pressure level settings with AutoCair automatic weight sensing technology, delivering fail-safe patient comfort and support.

Combining durable foam core with alternating air cells embedded with castellated foam to deliver comfort and support for patients up to 230kg. The castellated foam articulates when the mattress is profiled, while static head area foam offers stable support for enhanced sleep.

Code	Spec
1481827	King Single

ALTERNATING MATTRESSES ••

ProCair Prime Mattress Replacement System

The ProCair Prime can be used as a fully alternating pressure mattress and can also be easily converted to a hybrid foam mattress.

Easy to set up, the ProCair Prime automatically adjusts the pressure to suit the weight of the patient and does not need a separate pump unit to hang from the bed - it is all built-in! This minimises trip hazards or damage from pumps being bumped off the bed.

No more concerns over correct pressure level settings with our AutoCair. This cyclic automatic weight sensing technology delivers fail-safe patient comfort levels.

The mattress can easily be converted to a hybrid mattress by adjusting the position of a built-in foam layer. Hybrid mode provides even greater comfort for the patient. It easily and quickly converts back into dynamic mode to step-up to complete pressure off-loading if required.

Code	Spec	Length	Width	Depth
1481800	King Single	2000mm	1050mm	180mm

ProCair Plus Mattress Replacement System Sealed Base

The ProCair Plus is our premium solution for high-risk patients and offers optimal patient therapy and comfort; fully automated operational features; advanced safety features including back-up battery; and advanced error and service indicators.

No more concerns over correct pressure level settings with our AutoCair. This feature's continuous automatic weight sensing technology that delivers fail-safe patient comfort levels.

Increased protection and therapy for vulnerable heels with an independent heel zone made up of narrower cells, that can be disconnected as required.

An inbuilt BackUp Battery unit provides the reassurance of up to 5 hours emergency backup power in event of a power failure or accidental power disconnection. Fowler Boost mode automatically adjusts mattress pressure to provide increased support under the sacral area when the backrest is raised.

Be alerted when your patient leaves the bed with our inbuilt CairAlert feature. This has an optional warning alarm signal to indicate that the patient has got off the mattress.Harnessing the best in technical innovation, our feature-rich products deliver a complete range of alternating pressure mattress solutions for high-risk patients, ensuring optimal patient therapy and comfort.

BODY PROTECTION

HipSaver Nursing Home

The Leader in Hip Protection

Designed for the mobility and comfort of residents plus convenience and peace of mind for caregivers. High Compliance Nursing Home Model has permanently sewn-in protective pads - for higher resident compliance.

Protection that's easy to wear & manage. Designed for the mobility and comfort of residents plus convenience and peace of mind for carers. HipSaver Nursing Home is a durable brief with a roomy fit for easy dressing and continence care. All HipSaver garments and pads are laundries safe for washing and drying up to 95'C.
- Durable, breathable polycotton-spandex brief
- Ample leg openings for easy dressing and toileting
- Soft, thin protective hip pads
- Fits easily over diapers, accommodates incontinence pads
- Can be worn 24 hours a day - comfortable to sleep in

SlimFit Pant Only

HipSaver SlimFit delivers excellent protection. Made from polycotton with form fitting Spandex®, HipSaver SlimFit looks good, feels good and pulls on just like regular underwear. It's lightweight and flexible enough for walking fold, tennis, skiing and other sports, and comfortable enough for everyday wear.

HipSaver SlimFit is ideal for fashion conscious and active elders who are at risk of hip fracture, but reject uncomfortable and obvious hip protection products.
- Soft, thin (13mm) pads, tapered for protection with style
- Ultra-soft breathable polycotton-spandex for comfort and smooth fit without being tight or binding
- Comfortable enough to wear 24 hours a day - even when sleeping
- Fully machine washable and dryable, even at high temperatures

VITAL SIGNS MONITORING

Welch Allyn Connex Spot Vital Signs Monitor

The Connex® Spot Monitor features an easy-to-use, vivid touchscreen display and provides accurate vital signs measurement including blood pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. The device connects wirelessly to your EMR and sends vitals to the patient chart from the point of care to help improve efficiency.Its upgradeable design and custom configurations include optional wall unit integration, industry-leading thermometry and pulse oximetry choices, connectivity and other mounting/mobility options. In addition, the Accessory Power Management Stand with WhisperDrive™ technology features additional power backup, providing up to 17 hours of on-time, alleviating the need to charge the monitor as frequently.

- Customizable workflow options for documenting patient observations (ie. Is & Os, Pain Scale) and vitals modifiers (ie. BP cuff location)
- Automated Early Warning Scoring to help clinicians identify and respond to signs of patient deterioration (ie. MEWS, NEWS)
- Options for mobile stands, wall mounts and integrated exam systems to solve workflow requirements
- Single sign-on options—including integration with Imprivata—available for quick, secure clinician login
- Secure: FIPS-approved encryption of transmitted data and a range of additional security features
- SureTemp® Plus Oral / Axillary or Braun ThermoScan® PRO 6000 Tympanic Thermometry
- Options for WiFi®, Ethernet and Bluetooth® connectivity to EMR systems
- Choice of leading SpO2 technologies: Masimo®, Nellcor® or Nonin®
- BP averaging to help ensure accurate hypertension diagnosis
- Connectivity to Detecto, Health o meter® and SECA scales
- SureBP® technology can provide BP in only 15 seconds

SCALES

Healthweigh Wheelchair Scale

The Healthweigh® Wheelchair Scale allows practices to measure patients confined to a wheelchair in a safe and comfortable manner. Patients can be placed onto the scale via the scale's two wide accessibility ramp. The Healthweigh® Wheelchair Scale also includes movement compensation technology, which eliminates involuntary movement during the weighing process to ensure accurate results. The scale also features a manual/automatic tare option, which allows the weight of wheelchair to be reduced in calculations.

1280562	GS300 with Table/Wall Mount
1297732	Extendable Wall Mount

Heine EL3 LED Examination Light

HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.

Shadow-free illumination. The compact illumination head (Ø approx. 60 mm) allows convenient, precise positioning, particularly in difficult application situations. Optimal positioning eliminates unwanted shadows in the illuminated field.

1005899	MultistiX-10SG Strips 100

ANAEMIA SCREENING

HemoCue HB301 Analyser

Optimized for anaemia screening in primary care and blood donation settings, the HemoCue Hb 301 System is a simple and convenient solution. The HemoCue Hb 301 System provides quick, easy access to lab-quality results without compromising accuracy, even in demanding climates with high temperatures and humidity.
- Precise factory calibration against the ICSH reference method
- Patented microcuvette technology with excellent lot-to-lot reproducibility
- Robust testing within a wide range of temperatures and humidity
- Blood-based liquid controls available

Code	Spec
1397931	HB301 Analyser

GLUCOMETER

Accu-Chek Guide

- Have the option of transmitting results to the Accu-Chek Connect diabetes management app on your compatible smartphone* using wireless technology
- Wide test strip dosing area —apply a small drop of blood anywhere along the wide yellow edge
- No more "strip confetti"—the spill resistant vial helps you remove one strip at a time
- Monitor in all light conditions, thanks to a bright, backlit display and a strip port light
- Eject used test strips from the meter with the push of a button
- Follow step-by-step, written instructions on the display
- Proven accuracy that exceeds current ISO standards
- Receive glucose readings in less than 4 seconds

Code	Spec
1369504	Accu-Chek Guide Meter Only
1369512	Test Strips x100

OXYGEN CONCENTRATOR

Compact 525 5 Litre Oxygen Concentrator

Delivering up to 5 litres per minute with high oxygen concentration across all flow rates and adopting the latest developments in the reduction of sound and power consumption, the latest Compact 525 increases patient comfort and lowers operating costs.
- Intelligent power management system utilises turn-down® technology providing less power consumption below 2 l/min flow rates
- Weighing only 16.3 kg the Compact 525 is the smallest and lightest 5 litre concentrator Visual and audible alarms for low Oxygen levels, power failure, pressure drop and service required from DeVilbiss Healthcare
- Oxygen Sensing Device for continuously monitoring Oxygen levels
- New maintenance free innovative rotary valve
- Recessed humidifier nook prevents damage
- Circuit breaker with reset function

Code	1442759

Liberty Suction Pump 7E-A 240V 18L/min

The Liberty 7E-A Portable Suction Unit, is a new design, oil-free lubrication pump and based on extensive experience and development trends from domestic and overseas products.

The Liberty 7E-A Suction Pump is specially designed for extracting thick liquid such as blood, phlegm, etc. Not only can this unit be used as an aspirator in the operating room or emergency room, but also as a health care product for the home.

Portable, compact small size:
- Square negative pressure dial
- Light-weight, easy to carry
- Oil-free lubrication pump
- High negative pressure
- Built-in bottle cavity
- Volume: 18 Litres
- Large Flux
- Low noise
- Power: 240V

NEBULISER THERAPY •••

AiroMax Nebuliser Therapy Unit

The AiroMax Nebuliser is equipped with a powerful and quiet piston compressor that does not need lubrication, providing a reliable low maintenance nebulising system. It is designed to nebulise medication continuously at home or in clinical settings for children and adults for the inhalation of all prescribed bronchial medication's. The high flow design is manufactured to maintain 12-16L/minute flow rate and a nebulisation rate of 0.50mL/minute. All the AiroMax accessories are phalate-free. The nebulising efficiency of the AiroMax Nebuliser makes it an outstanding choice in administering nebuliser therapy.

- Compressor max pressure 2.5 bar, Power 240V, 50Hz, 1.0 Amp
- Masks, bowl, tubing, filters and carry case
- Allows patient-specific individualisation
- Nebulisation rate 0.55ml/minute
- Quiet piston operation
- Five year warranty
- Noise level 52 dbA

Code	Spec
1152348	AiroMax Nebuliser
1417177	Filter x3

DEFIBRILLATOR ••

Defibrillator Lifepak CR2 Essential Semi-Automatic

Sudden cardiac arrest (SCA) can happen to anyone—anywhere. Immediate treatment is vital. A victim's chance of survival dramatically decreases for every minute without treatment. That's why public access to defibrillators is so important. They put lifesaving technology where it can do the most good. So when an emergency happens, you should have nothing less than the best. Layered design with easy-to-follow, bold graphics. Both trained and untrained AED users clearly know how to begin.

- QUIK-STEP™ Electrode Pads: Peel directly off the base for faster side-by-side placement
- Metronome and CPR Coaching: Sets an effective pace and audibly guides users
- Child Mode: Toggle to Child Mode for reduced energy and CPR guidance appropriate for children
- ClearVoice™ Technology: Detects background noise and adjusts the volume for clear instruction
- Highest Available Energy: Up to 360J for more effective shocks as needed
- LIFEPAK TOUGH™: IP55 rating for challenging environments
- 8-year warranty
